Having learnt that some technicians have tried to clean the contacts in T1127 with various cleaning preparations, we want to state that the contacts in the drum switches of T1127 need no cleaning at all. If you try to clean them with a cleaning fluid, the plastic parts might crack.

We have therefore affixed a sticker to the transmitter at the drums in order to call your attention to this fact.

**WARNING!**  
**DON'T CLEAN CONTACTS**  
**WITH ANY SORT OF**  
**SOLVENTS OR CLEANING**  
**SPRAYS!**  
This will cause cracking of the plastic parts of the contacts.
