

"SAILOR" H1283

Anvendes når SAILOR CRY2001 skal forbindes til SAILOR Kortbølgesender Program 1000 eller 1000/B.

Sættet består af et håndsæt, der anvendes til kortbølgesenderens mikrotelefon, og en distres decoder, der monteres i Exciterne SAILOR S1300/S1301/S1302/S1303/S1304.

To be used when SAILOR CRY2001 is to be connected to SAILOR Short Wave Transmitter Programme 1000 or 1000/B.

The set consists of a handset cradle which is used for the microtelephone of the short wave transmitter and a distress decoder for mounting in the Exciters SAILOR S1300/S1301/S1302/S1303/S1304.
