

"SAILOR" H2080

Anvendes som forbindelsesboks mellem SAILOR CRY2002 og det udstyr SAILOR CRY2002 skal arbejde sammen med.

Med SAILOR H2080 sikres en let installation, hvor der er taget højde for forskellige signalniveauer og forskellige tastinformationer, f.eks. fra forskellige NMT Mobiltelefoner. Hvis Telephone Line Adaptor 702090 skal anvendes, monteres den i Forbindelsesboks SAILOR H2080. Forbindelsesboks SAILOR H2080 er konstrueret, så den passer under SAILOR CRY2002.

To be used as a connection box between SAILOR CRY-2002 and the equipment which SAILOR CRY2002 is to operate together with.

SAILOR H2080 makes installation easy, as the different signal levels and the various keying information, e.g. from the different NMT Mobile Telephones, have been taken into account.

If you are using Telephone Line Adaptor 702090 it is to be mounted in the Connection Box SAILOR H2080. The Connection Box SAILOR H2080 is constructed in such a way that it fits under SAILOR CRY2002.
