

AERIAL FOUNDATION WITH TILTING
DEVICE TR 12 TSP-E

Anvendes som fundament til MF/HF-Antennen, STA 150 C/MF/HF. Vippebeslaget gør det let at lægge antennen ned i tilfælde af bropassage eller service.

To be used as foundation for the MF/HF-Aerial, STA 150 C/MF/HF. The tilting device makes it easy to lower the aerial when you pass a bridge or during service.

Height: 1200 mm.

AERIAL FOUNDATION WITH TILTING DEVICE TR 12 TSP-E

"SAILOR" E62.133

Anvendes som fundament til MF/HF-Antennen, STA150C MF/HF/E. Vippebeslaget gør det let at lægge antennen ned i tilfælde af bropassage eller service.

To be used as foundation for the MF/HF-Aerial, STA150C MF/HF/E. The tilting device makes it easy to lower the aerial when you pass a bridge or during service.
