NOV 29 1977

Mr. Dan Alroy  
President  
Q1 Corporation  
6 Dubon Court  
Farmingdale, NY 11735

Dear Mr. Alroy:

The overflowing attendance and enthusiastic interest of the attendees at the SPECSINTACT Coordinating Team, Managers and Other Users Meeting held here the week of November 21, 1977, is indicative of their desire to use the Q1 as a management tool, where applicable, for controlling costs and focusing facility support priorities. The success of the meeting was largely due to the excellent support and participation of the discussion leaders.

We would like to thank Messrs. Andrew Lee and Charles Castelli for their professional presentations and technical discussions during the two days of meetings. Your continuing support and assistance in the implementation of our system and the team effort to debug problems in the software and hardware areas is appreciated. We look forward to working together with Andy and Charlie as we install the Q1's in the remaining NASA Centers. The development of the Q1 Lite in the NASA pilot program for SPECSINTACT and FPDS applications has provided NASA with a unique microcomputer which we believe is a leader in the word processing field.

Thank you again, and please express our appreciation to Andy and Charlie for their participation in our meeting.

Sincerely,

R. H. Curtin  
Director of Facilities
