

Product: DSC 3000 & DSC 9000

Technical Information

SUBJECT: NEW SOFTWARE FOR
DSC 3000 & DSC 9000

SKANTI has the pleasure hereby to introduce new revised software versions for DSC 3000 and 9000.

DU 3000 version 3.08
DU 9000 version 1.17

The new features are:

1. Supports NMEA Sentences with up to 5 decimals from new GPS receivers and GLL Sentences not including UTC from old GPS receivers.
2. Factory resetting can now be carried out by means of dip 1 in switch S1 on PCP 717
Please see Technical Information 4-9-34513 November 97.

For further information, kindly contact the SKANTI service department.
