SUBJECT: NEW SOFTWARE FOR RADIOTELEX MODEMS PCP 717 and RTM 986.

Technical Information

SKANTI has the pleasure of introducing a new/improved software for the Scancomm radiotelex modems in TRP 7200 and TRP 8000.

PCP 717 and RTM 986, ver. 2.15

1. Supports Scancomm 2.2 with Cyrillic/English option.

2. Continuous Telex scanning starts immediately.

3. Supports both 5 and 9 digit call codes individually in Scancomm modem setup.

4. Password for modem setup in the Scancomm program is ITNAKS.

Please note that all Scancomm radio telex modems (PCB 717 / RTM 986) shipped from SKANTI after November 1, 1997 will contain the new software version 2.15.

For further information, kindly contact the SKANTI service department.
