

Product: TRP 9500

SUBJECT: NEW CONFIGURATION PROM FOR TRP 9500

SKANTI has the pleasure hereby to introduce a new revised configuration Prom for the TRP 9500 MF/HF transceiver:

PCB 910 Transceiver Control Board software version 1.01

1. Remote protocol system changed to allow dual control on the TU and TCU simultaneously, T-BUS/NMEA protocol type is user selectable.
2. Keying and selectable audio input on both TU and TCU.
3. The RF output power can now be reduced to a level specified in the Configuration Prom by means of Pin 8 'TX Inhibit' in the AUX connector when shorted to ground.

Only compatible if transceiver software version 1,03 or later is installed.

Please note that all software can be downloaded from the Skanti Home Page www.skanti.dk

For further information, kindly contact the SKANTI service department.
